

SAED ANNUAL MEETING 2011

Sverker Toreskog 75 Symposium

Solstrand FjordHotel
Bergen, 19 - 21 August

It is with great honour and pride that the SAED dedicate the Annual Scientific Meeting in 2011 to Sverker Toreskog who will be 75 this year.

Through decades, Sverker has promoted the minimal invasive approach, showing the use of composites and partial superthin veneers as an Esthetic and tissue saving technique compared to more conventional prosthodontics.

We will celebrate Sverker and his influence on Scandinavian dentistry with great lectures, entertainment and the unsurpassed atmosphere of this beautiful venue in Bergen.

There are only a limited number of rooms at the hotel so this will be "first come first serve", members of the SAED will have the benefit of early registration.

SPEAKERS:

John Besford
Alessandro Devigus
Harald Gjengedal
Ivar Mjør
Claes Myrin
John Orloff
Hans Sandberg
